

Chapter 10 Exercises

1. Common (and Uncommon) Interests

Please fill out the following chart, indicating your interests, your kids' interests and where they two sets may or may not overlap. Where they overlap, your action step can be a way to spend time together on that common interest. For interests that do not overlap, your action step can be a way to reach common ground, something you can do to better embrace their interests, or something you can do to get them more interested in your stuff.

| My Interests | Common Interests | My Kids' Interests |
|--------------|------------------|--------------------|
